WE CURE STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, small, twisting stream, sharp cutting pains at times, slight discharge, difficulty in commencing, weak organs, emissions, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you, by cutting, stretching, or burning you. This will not cure you, as it will return. Our NEW METHOD TREATMENT absorbs the stricture tissue; hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened. The nerves are invigorated, and the bliss of manhood returns.

WE CURE GLEET

Thousands of young and middle-aged men are having their sexual vigor and vitality continually sapped by this disease. They are frequently unconscious of the cause of these symptoms. General Weakness, Unnatural Discharges, Failing Manhood, Nervousness, Poor Memory, Irritability, at times Smarting Sensation, Sinking Eyes, with dark circles, Weak Back, General Depression, Lack of Ambition, Varicocele, Shrunken Parts, etc. GLEET and STRICTURE may be the cause. Don't consult family doctors, as they have no experience in these special diseases—don't allow Quacks to experiment on you. Consult Specialists, who have made a life study of Diseases of Men and Women. Our NEW METHOD TREATMENT will positively cure you. Only thousand dollars for a cure we accept for treatment and cannot cure. Terms moderate for a cure.

At the age of 18 years he was granted a first class certificate to teach school. He studied law while teaching, and in a short time was granted license to practice law. FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Dr. Williams' Pink Pills

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

"H. C. Quickfall visited Campton on business Wednesday. (A d— lie.)" This item was sent us in response to our solicitation for news Tuesday, and one is in doubt whether the "d— lie" means the trip, or the business feature of it. Maybe both, and thus is the credulity of "our man about town" imposed upon in a civilized community.

Elder Adams returned Monday evening last from Licking Union, in Bath county, where he preached Saturday night and Sunday. He had quite a disagreeable ride home in the snowstorm, but secured a cut-rate derby en route, with which to adorn his classic brow, and that compensates him for all the discomforts he suffered.

HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamps to cover cost of postage on the bottle. Mention THE HAZEL GREEN HERALD and send your address to Dr. Kilmer & Co., Birmingham, N. Y. The proprietor of this paper guarantees the genuineness of this offer.

To be blind or deaf is a terrible affliction, and it pains us to record the fact that there are many in this section in one or both ways. They can't see our appeals to pay or are deaf to them. HAZEL GREEN, KY.

THURSDAY, Feb 24, 1898.

THERE is no longer any doubt now that A. Howard Stamper, our present county attorney, will make the race for the Democratic nomination for congress in this district. In a letter from him Monday he says he is in the race to the end. Mr. Stamper is so well known in Wolfe county and this immediate section that anything we might say would be superfluous. But in the outlying counties of the district he may not be so well known, and we therefore give a sketch of him by way of introduction. He was born on Laurel creek, in this county, April 8, 1865. His father died when he was only two years of age, and he was thus forced to hoe his own row and earn an education by the sweat of his brow. The first school books he ever owned were bought with money worked for at 25 cents a day. At the age of 18 he obtained a certificate to teach school. This vocation he pursued, meanwhile studying law at night, until he obtained license to practice in 1890. He had no means to attend a law school, but burned the midnight oil in order to get a knowledge of his profession, in which he has been quite successful. Since he became county attorney, and he is now serving a second term, he has had the interests of the county at heart and discharged the duties of the position to the satisfaction of all. In politics he has always been a Democrat, and was one of the first in the county to advocate free coinage. In brief this is his history, and should the Democratic party nominate him as its standard bearer they will find him well equipped and always ready to meet his Republican opponent in the discussion of both state and national affairs. As stated in our last issue he has a host of relatives and friends who will stand by him like Spartans. Wolfe county has never been honored with the selection of a congressman, and she is tired of forever waiting to be called. Now is the time and Mr. Stamper the man, and we leave his claims with a conscientious constituency, in the assurance that they will do him justice.

THE passage of the penitentiary bill by the legislature has filled Frankfort with a horde of hungry office hunters, and the election of the three commissioners will doubtless bring to the wire thirty or more starters in the race. The prizes are worth contending for, however, and we hope they may be won by good men. Incidentally we learn that Judge Swango will be an applicant for one of the places, and as Eastern Kentucky is entitled to one of the three we know of no man we should rather see secure it. His long acquaintance with public affairs eminently qualifies him and his services to the Democratic party entitle his claim to due consideration.

THE destruction of the battleship Maine in the harbor of Havana, last week, in which 275 men were drowned or burned, is attributed by many to Spanish treachery, and the United States Government is now investigating the disaster. Should the finding of the commission of inquiry verify the suspicion now war with Spain will undoubtedly follow. We believe, from what we have read that war will result, and it will not surprise us to hear the tocsin sounded before our next issue.

THE race for governor seems to have narrowed down to two candidates, Major Johnston, of Lexington, and Mr. Goebel, of Covington, in which case we are for the major. The papers indicate that our gubernatorial candidate has announced his desire to be attorney general. It is needless to say we are for him for any thing he wants, even though it be the presidency, and we are sorry he quit the gubernatorial contest.

THE United States is not today in a position to engage in war with Spain, but if the investigation now pending indicates treachery upon the part of the Don's she can soon get ready for the conflict. And, that there is a spec of war now in sight is plain to be seen.

Written for THE HERALD.]
SWEET NETTIE'S WEDDING DRESS.

In looking o'er the many things
I've treasured these long years,
There's one to which my heart still clings,
Although it brings me tears;
When brought to view it seems to glow
With all its loveliness,
As on that happy day, when, oh,
'Twas Nettie's wedding dress.

Her life was filled with love so true,
Since that sweet wedding day,
And hand in hand we journeyed through,
Along life's rugged way;
And often when reverses came,
And cares did me oppress,
I found sweet Nettie's heart the same
As when she wore this dress.

Long years have passed since she has worn
This token of her love,
When angels came from heaven one morn,
And took my pearl above;
No more her loving eyes beheld,
Her fingers softly press
This treasure, more to me than gold,
Sweet Nettie's wedding dress.

NAM WILSON.

THERE has been so much said about the Goebel election bill, pro and con, that we hardly know "where we are at," and the Democratic party is divided in opinion as to its effect should it become a law. Major P. P. Johnston, Senator Bronston, and many other equally good and true Democrats define it as being as infamous as was the Lodge bill, in which case we are certainly for it. The Fayette senator says of it:

"The detested force bill was mild in comparison. No party could ever before an intelligent people justify such a measure, or carry the weight of public indignation which would follow its practical enforcement. We may justly complain of the action of the Republican party in the Eleventh Congressional district, which it is charged was stolen, but we could never justify an effort as a preventive measure whereby the party in power might destroy popular government, disfranchise the popular voter and steal a whole state and every district, city and county within it.

"Whilst as a partisan I dislike to differ with my brother Democrats, I could not give my support to such a measure."

MAJOR JOHNSTON'S CANDIDACY.

He Has Not Resigned the Chairmanship of the State Committee, Nor Will He Until He Sees Goebel's Move.

A Cincinnati paper printed yesterday a story to the effect that Major Johnston would soon announce his candidacy for governor and at the same time announce his retirement from the chairmanship of the State Central committee. Major Johnston said this morning that he was not anticipating such a move at once. He didn't yet know when he would formally announce his candidacy for governor.

Major Johnston is already a candidate for governor in effect, although he has made no formal announcement of his candidacy. He practically admitted to a Leader reporter today that he was now as much a candidate as though he had announced. He is now looking after many little matters bearing directly upon his coming campaign and is to all intents and purposes a candidate.

Major Johnston said that when the time came for him to publicly announce himself a candidate he would resign as chairman of the State Central committee, but he yet doesn't know when this will be. He has yet begun no open campaign for the nomination as he thinks it is too early yet. Major Johnston's reasons for resigning as chairman of the State committee have often been published. He thinks that when he openly enters the field as an avowed candidate and publicly asks the support of the party that he should give up the chairmanship.

Future developments, however, may cause Major Johnston to change his mind about resigning. He certainly would not do so if there was any indication of an effort to elect a successor to him who would use his influence in favor of any candidate for governor, and this condition may arise. Then again nobody has heard anything about Mr. Goebel intending to resign as a member of the committee. Mr. Goebel is a member of the committee of which Major Johnston is chairman, and it is more than likely that Major Johnston will not take any steps about resigning until Goebel has indicated what he shall do as a member of the committee.

Major Johnston is not afraid people will say that he is trying to fix things if he does not give up the chairmanship. His reputation for honesty and fairness in politics is too well known among Democrats for this charge to be made with any degree of seriousness, or for it to be accepted with any degree of credence. It may be stated as pretty sure that Major Johnston is not going to take any hasty action in giving up the chairmanship of the State committee, and it would be folly on his part to take such action until Mr. Goebel takes some action giving up his membership on the same committee, and until it is clear Goebel's friends will not try to elect a Goebel chairman.—Lexington Leader.

PENSION LETTERS.

Some Remarkable Reasons Advanced as Evidences of Disability.

Assistant Secretary of Interior Davis receives some remarkable letters from country physicians in regard to pension claims. One from a mountain doctor in one of the Southern states, who thus graphically describes pathological condition of his patient as follows:

Spooky Mills, February 30, 1897.—Sur: I certify I treated the said soldier from 1888 to date—Formerly his stunk tube was fixed

to his nervous system, but now it has rotted off, causing grate expectoring and hard of breath. Your Obedt Servt,

DR. J. HASKINS, M. D.

It will be noted the "Dr." is mixed in dates as well as pathology.

Here is another doctor whose treatment could well be confined to horses:

Amblers, June 8, 1896.—Dear Sir: Yours received. I treated Wm. Akens after he came home from the surflis for polypus in his nose and running soar in his pastur jint. The polypus cum from the nite are and exposure. The wounds cum from the cick of a horse. JAMES WEAVER, M. D.

And here is one on the root doctor:

Stratin, March 20, 1896.—President of Pensers: I let you no I wor trected by a root and erb doctor. He gave me running milk weed for running soar and no avale. If my etam is loud I can voate with a fre couchants. J. S.

But here is one from an old fellow who had no faith in doctors and cured himself:

Berbersville, September 14, 1895.—Sir: At Bermuda hundred I had a great deal of trouble with my bowells. The doctor gave me quinine—no good. One day a member of our band—the base drummer—gave me four boxes of Brandiths pills. At Red River I was again attacked with despesia and bowells. I went and got a bottle of French red wine and a pound of cheese, which cured me at once. The doctor did me no good. While in Tennessee I got a sunstroke, and I now have cold air resting on my lungs and angelina pictorials, which the doctors says is a result of sunstroke.

J. H. S.

"I think," said the secretary, "one could stand the bottle of French red wine and the pound of cheese, but the angelina pictorials are to be dreaded."

"A week or so ago," he continued, "I had a letter from a German who claimed a pension because 'on the 19 of September, 1889, I lifted a hog over a fence and have suffered from asthma ever since.'"

Abe Cumens—that name will do—tells a pitiful tale. He says:

"We was workin on the canal aroun Hand No. 10. We was cutten down trees under water. Tha was a tug steamboat pullin out tha trees. One end of tha rope war tached to tha Captain (captain), tha other end to tha tree. Tha rope slae under tha water. I war in tha water, tha water war up to my waste, I war straddle tha rope, but unbeknowns, al of a sudden tha sterner tooted, tha rope titened and I war throne hell to brekfrest and now by gum I want a pensin."—Washington letter to St. Louis Globe-Democrat.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nervine. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

George Byrd, town marshal of Hazel Green, arrested Boon Phipps on Grassy, Morgan county, and took him to Frenchburg on Monday, where he was charged with stealing \$90 from a Mr. Gibbs. He was bound over to the next term of the Menefee circuit court, Rollin Kash and George Byrd going on his bond.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes for sale by J. T. Day.

The debate at the academy on the evening of the 22nd, proved equal to the occasion. The speeches were all good and very well delivered. The "new feature" introduced and participated in by many proved also a decided "hit." The following was the program for the occasion: Song—"America," by the school. Debate—Affirmed, that "Washington did more for his country than Lincoln." H. B. Society: E. O. Taulbee, J. R. Bays, S. H. Nickell and S. S. Elam. Negative U. D. Society: R. K. Nickell, Edgar Jones, Custer Jones and J. D. Cuning. Paper—"Banner Monitor." Edited by four young ladies, and read by Miss Nettie Wheeler. "The New Feature"—participated in by A. C. Jones, Noah Gase, W. H. Kash, Wm. H. Cord, G. N. Stevenson, H. C. Quicksall, J. A. Taulbee and Judge Davis of West Liberty. Chorus—By young women and young men. Thus ended one of the best entertainments ever given on a similar occasion. The crowd in attendance was large and much interested. They will all return on the 18th of March to hear the question—"Character is due more to education than nature," discussed by eight speakers, four from either society.

"Our man about town" made George Rice a business call one day last week and had his attention directed to a bedstead and wardrobe, both of black walnut with white walnut panels, the handiwork of Mr. Rice, which will compare favorably with any of the brought on furniture. Indeed, in our opinion it is much superior both in material and workmanship. Jocularly inquiring if matrimony was contemplated, Mr. Rice grinned, and said, "Vell, I dunno; ef I found the right voomans I might. I'm going to make a pureau and vashstand to match dese." Then it was learned that he was in correspondence with a handsome Lexington widow, and our m. a. t. knew he was hot on the trail.

Wm. H. Cord preached eight sermons at the Christian church from the 13th to the 20th, and received into the church 30 persons. When these sermons were begun he or any one else never thought of protracting them, but the occasion was ripe for persons to come into the fold, and at the services from two to eight persons came each night. There were baptisms at the river on the 13th, 14th, 17th, 19th and 22nd. On the 14th he baptized John H. Rose, an elder in the Presbyterian church and superintendent of the Sunday school. Thus in our midst much good was done for the Master when least expected.

"Our man about town," being unable to go his regular rounds, owing to the fact that he had to perform the duties of the "devil," who Tuesday was verifying the quotation, "when the devil was sick, the devil a monk was he," deputized the poet laureate, to whom he gave a note to some parties in town, requesting that they send us any news they might have. He returned with several items, among them the following. "We take this method of expressing the opinion that there are more d--d fools to the square inch in this town than ever before. All of which is respectfully submitted."

THE COURIER PROBLEM.

He Traveled 4.02 Miles an Hour and 48.23 Miles in All.—How It Is Worked.

The courier puzzle published in THE HERALD of Dec. 16, with the request that our academy students should take a whack at it, was also published in the Louisville Post. It attracted universal attention, says that paper, and many contributions were received from those who thought to solve the knotty problem. None of the answers was correct. Lately a number of letters have been received, asking for the True solution, and the Evening Post one day last week gave it. The problem, it will be remembered, is as follows:

"An army is 20 miles long, and travels at the rate of 20 miles a day, 12 hours being a day's journey. A courier starts from the rear of the army at the time the order to march is given; goes to the head of the column, delivers his message, and returns to the rear, reaching the rear just as the order to halt for the night is given. How far had the courier traveled and at what rate of speed did he travel?"

The answer is: He traveled at the rate of 4.0237 miles per hour, and the distance he traveled was 48.2842 miles.

Prof. E. H. Mark, superintendent of schools for Louisville, gives the following as the two best methods of solving the problem, both being by algebra. The first solution is according to this formula:

Let x equal the number of miles advanced by the army before courier reached the head of the column. Then x divided by 12, or 3x divided by 5 will equal the time of advance of army before courier reached the head of the column; 20 plus x will equal the distance traveled by courier before reaching the head of the column, and 20 plus x divided by 3x divided by 5, or 100 plus 5x divided by 3x will equal the rate of travel by the courier. Then 20 minus x will be the distance traveled by the army while the courier was returning from head to rear of column, and 20 minus x divided by 12, or 60 minus 3x divided by 5, will equal the time of travel of army while courier was returning from head to rear of column, and x divided by 100 plus 5x divided by 3x, or 3x square divided by 100 plus 5x, will be the time of travel of courier from head to rear of column. Now this time is the same for both army and courier, therefore equating we have 60 minus 3x, divided by 5, equals 3x square divided by 100 plus 5x. Clearing of fractions we have 6,000 minus 15x square equals 15x square; collecting we have 30x square equals 6,000; x square equals 200 and x equals 14.1421 miles, hence the rate of travel is 4.0237 miles per hour, and the total distance traveled by courier is 20 plus x added to x, equals 20 plus 24 or 48.2842 miles.

The other solution starts out with x representing the rate of travel of courier and is solved by algebra also.

The Roberts Local Option Bill.

The fight over the Roberts local option bill was short this morning, as on the question of appeal, which is still pending, there was one short of a quorum voting, and the senate voted to postpone the appeal until tomorrow at 10:50.

The bill as it now reads is one of the most stringent local option measures ever offered. It provides that upon application of 22 per cent. of the legal voters in a community the judge shall order an election upon the question as to whether or not liquor of any kind shall be sold, not less than sixty days nor more than ninety days after filing the petition. These petitioners may call for an election either in the county, city district or precinct, as the case may be, and the bill provides that from the time the petition is filed until the election is held and the vote is certified no license shall be issued within said territory under any circumstances. By this means, whether local option carries or not, the filing of petitions and calling for elections will operate to prevent the issuance of any license, and these elections can be ordered and held once in every three years. The bill also provides that the vote of the larger territory shall always control as against the vote of any smaller section of territory. For instance when a city of the third, fourth or fifth class has no local option law, but the county outside of the city has local option, it compels the city to also come under the operation of the law. But in no case can the vote of any city, town or district control as against the vote of a larger territory of which they are a part, and the county judge can not order a separate election for any city or town at or before the time for a vote in the whole county. This means that the county, if it wants local option, will have to vote all the towns in the county in order to get it. Section 2, after providing that the vote of the entire county shall control every precinct in the county forbids the sale, loan or barter in any way of liquor of any kind, and fixes the penalty for violations at fine and imprisonment. It goes further and makes liable to the penalty any person or common carrier who brings liquor into a community when this law has been voted, and no railroad company or stage line or private individual can carry to another person in the county any liquor without becoming liable to the penalty. The carrying of any package containing liquor or causing same to be carried shall be considered prima facie evidence of the knowledge of the carrier of the contents, and he shall be liable, no matter how innocent he may have been in accepting the package for delivery. Section 3 makes it unlawful even if the entire county votes for the sale of liquor to sell it in any precinct where the sale is now prohibited by special act of the legislature.

The bill, with its stringent and far reaching sections, is of vastly more importance than at first appears. It means that upon the Democratic party will rest the responsibility for having passed the most stringent local option law ever put on the statute books, and it means many thousands of votes when the question of the law is fully understood.—Louisville Dispatch.

Nelson's Hawaiian Hair Elixir.

This is to certify that we handled Nelson's Hawaiian Hair Elixir for ten months, and can truthfully say that the sale of it is phenomenal. We have sold ten times as much of it as of all other hair preparations combined, our sales amounting to over 600 bottles, seven other drug stores in the city handling it at the same time. We consider it by far the best hair preparation on the market.

"Inside figures" are always interesting, and the following are certainly some striking ones about The Ladies Home Journal. During 1897, 8,183,113 copies of this magazine were printed and so thoroughly sold that the latter-year issues are entirely out of print. It consumes 3,424,362 pounds of paper in a year, and absorbs 30,902 pounds of ink. It runs 28 presses. The advertising columns contained \$498,325 worth of advertising during the last year. The editors received 9290 manuscripts and less than one per cent. were accepted. The magazine employs 22 staff editors. 24,648 letters have been received and answered in the year by the editors of the correspondence columns. The Journal has over 15,000 active, working on the road getting subscriptions. It has educated 442 girls free of charge under its free educational plan. In a single day it has received as high as 18,000 subscriptions. 300,000 copies of the Journal are sold each month on the news stands alone—425,000 people subscribe for it by the year.

Hargis for Johnston.

Ex-Chief Justice Thomas F. Hargis, of Louisville, is at the Grand to argue a case today in the Federal Court of Appeals. Touching upon State politics the Judge said:

"I think that Major Phil P. Johnston, of Lexington, has the inside track for the Democratic gubernatorial nomination. Mr. Johnston is the most representative man we could nominate, as he is closely identified with the great agricultural interests of the state. The grand bulk of the free silver constituency in Kentucky is made up of our farmers, than whom there is not a more intelligent yeomanry on earth. By reason of his legal acquirements and experience in the legislature, on the bench and in the Constitutional convention Major Johnston would make a typical Kentucky governor. He is as upright and honorable a man as I ever knew, and calmly courageous in his convictions. He would not lie to be president of the United States. He has created no personal antagonisms, and has commanded respect and admiration. He is in a position to draw strength from every direction, and would poll as many votes as any man the Democrats could put up, and we want to put our best foot foremost and not lose what we have regained in Kentucky this last year. The result of the election of 1899 in Kentucky will have a telling effect upon the presidential campaign of 1900, and we must not make any mistakes. There is much sympathy for Gen. Wat Hardin on account of his defeat and domestic sorrows, and he has considerable strength left, but not enough to get the nomination again. Senator Goebel is strong, and has a number of the active politicians in Louisville for him, but Johnston and Hardin have a majority of the masses of free silver men there."—Cincinnati Enquirer.

Mr. Ward L. Smith, of Fredericks town, Mo., was troubled with chronic diarrhea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by J. T. Day.

A Mouse in a Mule's Head.

Last week a mule owned by Nat Rogers, of Cane Ridge, died under peculiar circumstances, says the Bourbon News. The mule, which seemed to be brain trouble, and which made the animal fractious, defied the skill of Dr. Jameson, and the mule suffered convulsion after convulsion, finally rushing into a pond and drowning. When the mule's head was opened a mouse was found in the animal's brain. It is thought that the mouse crawled up the mule's nose while the mule was eating in the barn.

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—Geo. E. Wolff, Clerk of the Circuit Court, Fernandina, Fla. Curious Typographical Errors.

Dr. Daniel, of the Texas Medical Journal, referring to a recent editorial in the Statesman on typographical errors, gives an amusing experience in that line. He says he wrote: "Dr. Jao. Bailyhache set 74 years, born July 22, 1822, and died—" Imagine his disgust when it appeared in the Journal, "Dr. Bailyhache ate 74 years of corn July 22, 1822, and died."

A GOOD INVESTMENT That Will Pay Interest for Years.

As an Encyclopedia it is in itself worth twice the price of the whole library. It is par excellence the book of reference for every man, woman or student to have at his or her elbow at all times for quick, ready reference. It is the latest, best and most concise, yet thorough and accurate encyclopedia extant, and the only one in existence that is brought down to September, 1897. It is edited by John Clark Ridpath, LL.D., assisted by a staff of 100 scholars and specialists. It includes comprehensive and reliable articles on The Cuban Rebellion, Klondike Gold Fields, Moving Photography, and other topics of live interest today. In all, nearly 100,000 topics are treated, and these are magnificently illustrated with thousands of engravings, colored maps and charts.

As a Dictionary The work of the most scholarly linguists of modern times. It is an unabridged etymological, pronouncing, literary, scientific and technical dictionary of the English language. It is an acknowledged authority. The words, with definitions, occupy nearly 3,000 columns of closely-printed matter. The regular subscription price of this portion of the Home Reference Library alone is \$24.

YOU TAKE NO CHANCES

We are so thoroughly confident that this work will please all who see it that we give purchasers the privilege of returning the books any time within ten days after delivery if they are not satisfied with them, and the one dollar paid will be cheerfully refunded.
